SUMMARY

Software Engineering enthusiast and Integrated MCA 2026 student with hands-on experience in React.js, Python, Java, FastAPI, Flask, REST API Development, SQL, and MongoDB. Built AI-powered, scalable web applications and backend systems through academic and personal projects. Strong foundation in Data Structures Algorithms, Object-Oriented Programming, Software Engineering, and problem-solving, with a passion for building reliable cloud-based applications.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Flask, FastAPI, REST API Development

Core Concepts: Data Structures Algorithms, Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Agile Methodologies, REST APIs, Microservices, Unit Testing, Software Engineering, Artificial Intelligence, Machine Learning, Prompt Engineering

Databases: MySQL (Relational), MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, VS Code

PROJECT EXPERIENCE

Natural Language to SQL Query Engine – Software Engineering Project | *Python, Claude API, SQL, Git*

- Implemented validation and error-handling mechanisms to improve query reliability.
- Optimized query-processing workflows for efficient SQL generation.
- Designed schema-aware backend logic following modular software engineering principles.

Fraud Detection Backend Application | *Python 3, Flask, Statistical Analysis, Git, GitHub*

- Implemented efficient data processing pipelines and algorithm-based validation workflows.
- Designed efficient data-processing pipelines.
- Designed modular backend components following software engineering best practices to improve code maintainability and scalability.

Full-Stack E-commerce Marketplace – Full stack web Development | *React, TypeScript, Tailwind CSS, Python FastAPI, JSON file-based database*

- Developed a full-stack e-commerce platform with authentication, product search, filtering, and scalable REST APIs.
- Designed and integrated RESTful APIs for product and user management.
- Applied object-oriented programming principles to build modular and maintainable components.

EDUCATION

Parul University, Vadodara

IMCA · IT and Computer Science (AI) · **CGPA · 8.15**

2022 – 2026

Vadodara, Gujarat

Master Minds

2022

HSC · **Percentage · 85.2%**

Hyderabad, Telangana

Kakatiya Central High School

2020

SSC · **Percentage · 98%**

CERTIFICATIONS

- Full stack UI web using React — NareshIT — Certificate
- Web Designing and Hosting — Parul University — Certificate
- Neural Networking and Deep Learning(Dual Degree) — Parul University — Certificate

Soft Skills

- First-Principles Thinking – solves problems by understanding basics, not memorizing solutions
- Problem Decomposition – breaks complex tasks into smaller, manageable steps
- Rapid Self-Learning – quickly learns new tools and concepts when required

Relevant Coursework

- Data Structures Algorithms
- Object-Oriented Programming
- Database Management Systems
- Operating Systems
- Computer Networks
- Software Engineering
